---

OBJECTIVE

Ambitious second-year Computer Science student specializing in AI & ML with a strong foundation in frontend technologies and Python. Proven ability to build responsive web applications and a passion for solving complex problems through clean code. Seeking a Web Development Internship to contribute to scalable real-world projects.

TECHNICAL SKILLS

- **Languages:** HTML5, CSS3, JavaScript (ES6+), Python, C, C++
- **Frameworks & Libraries:** React (Learning), Bootstrap, Tailwind CSS
- **Tools & Technologies:** Git, GitHub, Postman (Student Expert), VS Code
- **Core Competencies:** Responsive Web Design, DOM Manipulation, REST APIs, Problem Solving

PROJECTS

Portfolio Website | *HTML, CSS, JavaScript*

- Architected a responsive personal brand site featuring a custom UI/UX focused on mobile-first accessibility.
- Implemented interactive elements to showcase a dynamic project gallery and skill sections.

To-Do List Web App | *JavaScript, HTML, CSS*

- Developed a productivity tool utilizing **DOM Manipulation** for real-time task management (Add/Delete/Complete).
- Optimized the application for speed and cross-browser compatibility.

Aadarsh Gram Connect – Rural Analytics | *Conceptual Design*

- Proposed a dashboard-based monitoring system to identify and analyze infrastructure gaps in rural areas.
- Presented data-driven solutions for rural development as part of a technical prototyping initiative.

Drone-Based Monitoring System | *Research & Development*

- Designed a surveillance concept focused on public safety and real-world monitoring applications.
- Researched the integration of hardware and software for automated drone patrols.

EDUCATION

B.Tech in Computer Science (AI & ML) | *Shri Shankaracharya Technical Campus*

- **Duration:** 2023 – 2027
- **Relevant Coursework:** Data Structures, Digital Logic Design, Python Programming.

CERTIFICATIONS & ACHIEVEMENTS

- **Postman API Fundamentals Student Expert:** Certified in API testing, documentation, and collection management.
- **Python Programming Fundamentals:** Comprehensive certification in core Python logic and scripting.
- **Prototyping Excellence:** Actively participated in regional prototyping competitions for social impact.

ACTIVITIES & LEADERSHIP

- **NSS (National Service Scheme):** Active member contributing to community service and social welfare programs.
- **Technical Content Creator:** Developing guides and resources to help peers learn web development basics.
- **Continuous Learning:** Currently deep-diving into **React.js** and **Advanced JavaScript** patterns.
